8 Antennas Drone Signal Jammer / 2.4 Ghz Frequency Jammer With 2 Hours Inner Battery

2019/05/27

Detailed Product Description Product Name: 2.4 GHz Drone Jammer Application: Drone Jamming Net Weight: 40 Kgs RF Output Power: 100 To 300 Watts Antennas Quantity: 8 Antennas UPS Battery: Available Operating Temp: -10 To 50°C

Dimension: 630×530×330mm Power Of Each Band: 20 To 50 Watts Operating

Humidity: 5% - 95% 2.4 GHz Drone Jammer Drone Jamming Device With 2 Hours

Inner Battery Drone Jamming Device provides a safe countermeasure against a wide range of drone models. It allows for a controlled management of drone payload such as explosives, with no damage to common drones models or surrounding environment due to the drones generally responding via a vertical controlled landing on the spot, or returning back to the starting point (assisting to track the operator).

BENEFITS OF DRONE JAMMING DEVICE TACTICAL DRONE JAMMER: Effective coverage:

Allows for an up to 2km coverage, in a wide range of environmental conditions

Portable: Rifle shape with a backpack, one person operation Easy to use: no technical training for set up or use required Immediate video cease: immediately ceases video

transmission back to the drone operator Enables investigation: drone remains intact and available for forensic investigation Description

The battle for control of the skies continues. As the amount of unmanned aerial vehicles (UAVs) drones increases each year, many people are stepping up their efforts to keep the devices out of the

air. Times Starlight Technology, a traditional RF Signal jammer manufacturer in Shenzhen, has now developed various of new products, dubbed the Drone Jamming

Device, that attacks UAVs with radio waves. The Drone Jamming Device stated to use “radio control frequency disruption technologies to safely stop drones in the air,

before they can pose a threat to military or civilian safety.” It operates on standard GPS, 2.4G, 5.8G and ISM radio bands, allowing for it to interference with both

commercial and special UAV drone signals. The Drone Jamming Device can hit

objects from 100 to 5000 meters with an effective angle from 30° to 360°. A Drone

Jamming Device can be done from the smallest handheld portable jammer to the biggest Prison Jammer and VIP vehicle Mounted Jammer by different requirements. When a remote control signal is interfered, drones will often enter into their safety protocols, which usually includes one of three options. It will either hover in place until the pilot can regain a control link, attempt to land so the pilot can recover it physically, or try to return to its point of origin. Since the Drone Jamming Device is mentioned to be attacking the GPS signal as well (for optional, adjustable and can be turned off independently), the scenario is that the device will hover for a while or try to land.

Features

1. Wireless Signal Jammer High Power Manpack Portable Blocker Briefcase Type
2. Modular construction for easy maintenance, repair and upgrade.
3. Jam up to SIX different jamming modules.
4. Max 300 watt total RF output power.
5. Systematic Smart Cooling System.
6. The general design of the system meets military requirements.
7. Frequency bands and output power selectable.
8. Integrated main equipment, battery, and antennas increases mobility of the device
9. Different frequency bands can be controlled independently by different switches
10. Local or wire control operation mode can be selected based on actual environment
11. AC or DC power supply can be selected
12. Power Amplifiers protection design ensures the working reliability of the device.
13. Can customize AM, FM, VHF, UHF, 450MHz, iDEN, CDMA, GSM, GPRS, DCS, PCS, AWS, WCDMA, 4G 700, 4G 800, LTE 2300, LTE 2600, GPS, WIFI, WIMAX, etc.
